

I listen to XM radio every day. I drive in and out of major cities each week. I am glad that XM has the instant weather and traffic for major citys because I don't want to search the airways to find the information I need. Since I pay for this service, I think that it is only fair that I receive all the benefits of radio without the commercial interruptions. I was one of the first to sign on for XM and I will continue to listen to XM.
